Product Description

From the Manufacturer

With its newly integrated hot air blowing system, the Big Buddy Heater now takes portable heating to a new level. Ideal for use indoors, the safe Portable Buddy Heater features an automatic low-oxygen shut-off system that automatically turns the unit off before carbon monoxide fumes reach dangerous levels in your tent, camper, or garage. This portable wonder blasts out 18,000 BTUs, and can heat up to 400 square feet of space for up to 220 hours on one tank with the thermostat on low. A blower fan can be powered by 4 size D batteries or an A/C Adaptor. And, multi-position heat settings keep the room at just the right temperature so you're never alternating between too hot, and too cold.

FEATURES

- Battery or A/C powered blower fan for versatility
- Low, medium, and high heat level control knob for steady temperatures
- Key-shaped rear mounting holes for wall mounting
- Large four-position heat level control knob for controlling with gloved hands

- Large four-position heat level control knob for controlling with gloved hands
- Built-in Piezo starter for easy starts
- Automatic shut off for accidental tip-over and fume safety

SPECIFICATIONS

- Built in Ignition system
- Heat settings: 4,000 - 9,000 - 18,000 BTU's

Product Description

Big Buddy Heater 4,000/9,000/18,000 BTU/Hour, Indoor Safe Propane Heater, Features Include Built In Protection Probe, Easy Carry Handle, Low Oxygen Shut Off Pilot Safety System, Blower Fan Power On/Off Switch, Large 4 Position Heat Level Control Knob With Built In Piezo Starter, Integrated.

Mr. Heater® Portable Buddy™ Heater or Hose Assembly

<http://www.basspro.com/>

Quiet, odor-free, safe and reliable. Provides 4,000 to 9,000 BTU of radiant heat per hour to warm up to a 200-sq-ft. area. 2 speeds, Piezo push-button ignition, automatic low-oxygen shutoff. Runs 3-6 hours on a 1-lb. propane cylinder or 48-108 hours on a 20-lb. cylinder. Weight: 7 lbs. **Made in USA.**

Overall Rating: ★★★★★ 5 out of 5

The perfect little heater, February 16, 2009

By [fishfan](#) from IL [\(read all my reviews\)](#)

"I have a Portable Buddy that we take camping with us in early spring and late fall to keep the tent warm at night, and it does an exceptional job at that. Other than that, it just sat on the shelf most of the year, until about 2 weeks ago.

I have a little 3-seasons room that had one of those electric "fireplace" heaters in it, and it would keep the room just warm enough so that we could watch movies out there in the winter. Two weeks ago, that heater burned out, so I ended up pulling out the Portable Buddy expecting it to just take the edge off of the chill. To my surprise, it actually kept the room warmer than the old electric heater did.

The Portable Buddy is now a permanent fixture in that room, and I'll buy another one for camping. I'm also going to buy the adapter hose for the 20# tank to use in my 3-season room, so that we don't have to change propane tanks mid-movie. This is an excellent heater!"

Overall Rating: ★★★★★ 5 out of 5

BEST HEATER OUT THERE, February 13, 2009

By [GARR644](#) from MI [\(read all my reviews\)](#)

"I USE THIS HEATER FOR A WEEK OF EARLY SPRING STEELHEADING AND CAMPING. THE TEMP DROPPED AT NIGHT AND WITH THE HEATER ON LOW THE TENT STAYED WARM. BEST HEATER ON MARKED, NO FUMES OR SMELL SAFE FOR INDOOR USE."

Overall Rating: ★★★★★ 5 out of 5

Was Warm and Impressed, January 27, 2009

By [supremeweasel67](#) from Clarksville, Tn [\(read all my reviews\)](#)

"Went on a Hog hunt this past weekend. Was hunting out of Box Blinds, and each blind had one of these in it. Temps were in the 20s and 30s with a 10-15 mph wind. There were 2 of us in the blind and this was set up on the floor between us. Did an excellent job of keeping us warm. Did not seem to scare the hogs or deer, actually had a deer walk right under the blind, while this thing was going full blast. We did not have the Large tank, we were using the small tanks that come with the unit.

I will be picking one of these up, for next years deer season to use in my pop up blind, or ladder stand with skirting."
